DECORATION TECHNIQUES

EMBROIDERY

Nothing beats the quality feel of classic needlework. Created by using a special machine that is programmed to stitch a design that combines texture, pattern and color. We offer quality embroidery, digitization and typeset services.

MULTIMEDIA *Decoration*

Making the impossible logos possible, with the largest selection of decorating options, including felt, polyester twill and canvas appliqué, classic embroidery, yarn embroidery, classic print, distressed print, mending stitch and many more. From a great retail look to a nice vintage feel, our decoration team can put together Multimedia concepts to add a unique dimension to your logos and garments.

CHENILLE

A type of embroidery made from loops of yarn, resulting in a finished design with soft, fuzzy appearance. It offers a sophisticated collegiate or high end corporate look with tactile richness that only chenille can offer.

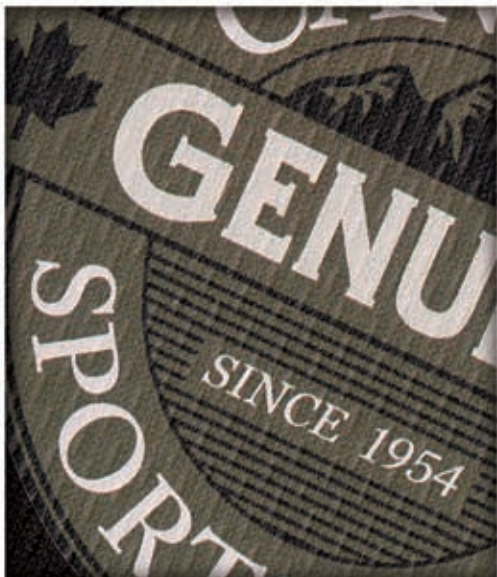

SCREEN PRINT

Most cost effective decoration method, especially on volume orders. Low order minimums. Prints highly vibrant colours that can be accurately matched. Can utilize speciality-printing methods to achieve unique looks and feel.

DECORATION TECHNIQUES

HEAT TRANSFER

Canada Sportswear offers heat transfer solutions for your logo or unique design. This digital printing process utilizes high temperature to transfer and adhere your design to the fabric surface.

SEAMLESS TRANSFER

Seamless transfers are designed to eliminate excess printed area or key-line surrounding a complex logo. Whether it's detailed text or complex graphics, seamless transfers can be used to achieve a clean look with perfectly weeded out transfers.

Flock TRANSFER

Flock transfers take your design to a whole new dimension. The faux finish and three dimensional appearance is great for adding texture to any design.

REFLECTIVE TRANSFER

Engineered to reflect light, our reflective transfers are designed to increase visibility for workers, joggers or anyone who spends time outside. We use premium quality **3M** reflective transfers.

DECORATION TECHNIQUES

SILICONE TRANSFER

Engineered to block dye migration, these transfers have a matte-finish and a thick silicone feel. Silicone transfers are stretchable, with good recovery and are excellent for athletic and performance apparel.

HIGH DENSITY SILICONE 3D DECORATION

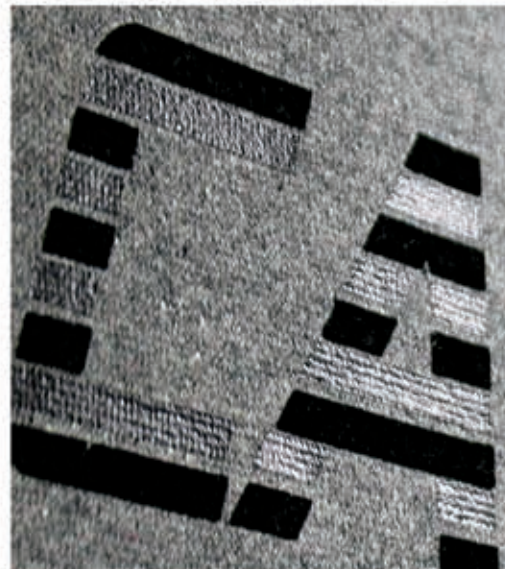

These premium quality stretchable transfers have a rich silicone surface and a raised 3-dimensional appearance, available in solid colors and reflective finish.

Accent EDGE 3D DECORATION

NEW multi-layered high density silicone transfers have a contrast color layer under the top layer, creating a unique and subtle accent, visible along the edges of the logo.

TEXTURE Blend™

A versatile blend of textures within one logo is what makes this decoration richly impactful. Blend options include 3D-faux finish, glossy or matte flat finish and reflective finish. To see how Texture Blend can work with your logo, please send us your artwork and let our design team create a unique look.

DECORATION TECHNIQUES

EMBOSS / DEBOSS

This decoration process creates raised (embossed) or sunken (debossed) designs on the fabric surface. Both of these decorative effects work well with leather garments. But why stop there? Canada Sportswear also offers premium emboss or deboss options for many of our other fabrications.

LASER ETCHING

A process that uses laser technology to engrave or burn a mark into the fabric. This technique is perfect for our micro fleece, softshell and performance polyester fabrics.

Feather TOUCH®

Feather Touch is a breathable decoration developed in-house by Canada Sportswear. The imprint is infused into the fabric without affecting its natural texture. You only feel the fabric, not the print, creating a lightweight and comfortable feel.

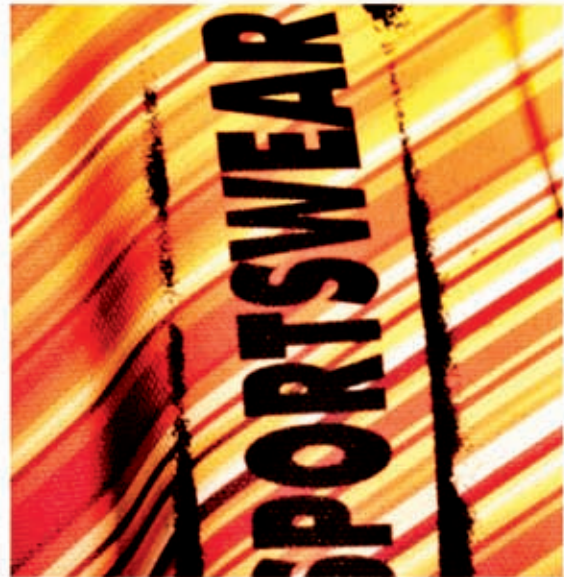

EXPTM 3D DECORATION

Introducing, a highly specialized 3D branding technique, developed in-house by Canada Sportswear. A striking combination of highly amplified 'Emboss' and detailed 'Print' creates an impactful retail inspired look.

DECORATION TECHNIQUES

DYE SUBLIMATION

From simple logo placement to stunning graphics with photorealistic details, dye sublimation is ideal for team uniforms and promotional apparel made with polyester fabrics.
